

IMPORTANT THINGS TO KNOW BEFORE YOUR SURGERY

- At the time of scheduling you will be provided with a surgery date and facility – **NO ARRIVAL TIME**. This arrival time information will be mailed to you.
- You will also be scheduling a measurement (ASCAN) which is necessary for the lens selection for your surgery. This will be scheduled at the checkout desk downstairs.
- You **MUST** advise your surgery scheduler if you wear contact lenses at any time as this will affect your measurement. You must also inform your surgery scheduler if you have an allergy to latex. **Failure to alert your surgery scheduler of either of these may result in a delay of your surgery.**
- On the day of your surgery it is necessary to have a responsible adult with you who will remain at the surgery center the entire time you are there and who can drive you home.
- A pre-admissions nurse **from the surgery center** will contact you prior to your surgery to discuss your current medications and any health concerns. They will advise you on taking medication the day of surgery.

• ALL ONE DAY POST OP APPOINTMENTS ARE IN THE PENSACOLA OFFICE
